The Popular Avalanche! Hans Crocker Elected Mayor by Eleven Hundred Majority!!

It is again our gratifying duty to congratulate the Electors of Milwaukee upon the issue of their Charter Election. After the most animated contest ever known in our City and upon the largest vote evercast, Col Hans Crocken, the People's candidate for Mayor, is elected by the triumphant and overwhelming majority of Eleven Hundred . Our estimable candidate for City Attorney, An-THUR MCARTHUR, E-4., is also successful by the handsome vote of 362 over a strong and popular competitor. For City Marshal, Timorny O'Bures Esq., nominated by the Democratic cancus, but voted for by all parties, is chosen by 1971 majority. Upon the other City Officers there was no ontest; all sides being satisfied with the pre-ent Officient incumbents, Lucas Shavee, Treasure and Cunton Walworth, Police Justice.

The result on the Ward Tickets, with occasion al exceptions, is equally a triumph for the People's cause, and highly satisfactory to the pubtic at large. The next Board of Aldermen wil count among its members some of the best men in our city; voted for, as the returns show, without regard to parry distinctions, and, in a great measure, with single reference to their business.

It is to the Merchants, Mechanics, and Business men of our city, that the credit of this signal victory must be awarded. They put forth all their energies in yesterday's contest, and the result shows what they can accomplish, when they stand of Milwaukee.

The late hour at which we obtained the returns forbids further comment to-night. Our renders will find the figures amexed sufficiently eloquent to speak for themselves.

Brever, Chestautest, 2nd wayd.

The undersigned, having carefully examined the pressed rooting Tiles, invented by Mr. Grassle, have found them perfectly answering the purpose intended. Their practical and segacious construction recommend this liquid of Tile, not only as a five proof and perfectly water-prior covering, but above all for its durability. Their signs and channels not only exclude the entering of snow or rain-mater, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimite comperition. Beskles this, Mr. Grasslo's method of burning the Tiles, deeply es them of the injurious tendency to abord water, making them in this way durable; and joining to the above another virtue, slz. that of dispensing with replairs. The undersigned therefore consider correctives fully justified in recommending to the lutiflue community the above roof ing Tile as an excellent and whighle material.

from which the above cut was taken. By it we can take the exact shape, and unoringly fit the most inregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. Another great advantage is, by keeping a copy of the impression, we can at all times it our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Cast Syrrex (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$4.25; surpassing any \$5 lfat sold in this city.
